Who we are?

ENSA

The ENSA European Network for Social Authorities is a network of cities and European regions that aims to promote international co-operation in the field of social care. Established by the Veneto region in 1999, the network has developed and supported strong partnerships between a wide range of regions and has carried out seminars, conferences, programmes and numerous exchanges of practitioners. This co-operation includes several projects financed by the European Commission. The network organises its work across five main areas – covering the elderly, youth and family, children, disability, and social inclusion. Once a year, working with the European institutions, a general assembly is held in order to share the lessons of the work done at local level and to participate actively in European policy-making and programmes.

ELISAN

Elisan, the European Local Inclusion and Social Action Network is a network of elected representatives set up with the support of the Committee of the Regions, with participatory status at the Council of Europe. This body promotes awareness of social actions at local level and seeks answers to social needs and rights issues.

Youth Care Platform

The Youth Care Platform has been set up by the Flemish Ministry for Youth Welfare. This association gathers care providers and their umbrella organizations with those national, regional and local authorities with legal responsibilities for the youth care sector in EU member states.
